The Annexe Gallery is proud to host [EYES WIDE OPEN](#) , a photography exhibition showcasing a selection of 120 works by 28 photographers from Africa, Asia and Europe.

The selection comes from the inaugural Singapore International Photography Festival held (SIPF) last year which featured 900 images culled from a total number of 6,600 submissions from all over the world. The final list of works were selected by the Festival's four curators – Ark Fongsmut (Thailand), Chow Chee Yong (Singapore), Terence Yeung (Singapore) and Wang Xi (China).

The exhibition presents a wide-ranging kaleidoscope of unforgettable images – from portrait to landscape, from artistic to journalistic – that documents each photographer's search for the real and the sublime.

A catalogue of selected photographs featured in the SIPF will be available for sale during the exhibition for RM40 per copy.
