BERSIH 2.0 Begins Voters' Supremacy Campaign to Address Weak Democratic System Exposed by Shera

Until our official launch, we will be running a series of campaigns on social media platforms like Instagram, Twitter, Facebook and on various news portals with the theme and hashtag #KetuananPengundi. We have also designed a distinctive logo to go with our campaign, hereby attached.
BERSIH 2.0 proposes six demands of Ketuanan Pengundi that should be supported and adopted by all political parties to make our democracy more robust, and political parties can compete on a more level playing field. The six demands are:
1. Don't suppress our votes.
2. Stop party hopping.
3. Make our Parliament work.
4. It's our right to dissent.
5. No double standards.
6. Give ratepayers a voice.

BERSIH 2.0 asserts that the Sheraton Move and the subsequent political chaos have sidelined the interest of the Rakyat and eroded our parliamentary democracy. It is time to restore our democracy by putting the interest of the Rakyat first. The Rakyat are the boss. We need to shift from racial supremacy to #VoterSupremacy!

Released by,

The Steering Committee of BERSIH 2.0
